MEN TOUGHENED BY LABOR MAKE BEST OF SOLDIERS

Those Who Have Worked Hard All Their Lives Best Fitted to Stand Hardships of Army Life-Few Notable Exceptions Only Prove Rule Among Ring Fighters That Ironworkers, Blacksmiths, &c., Were Superior to Their Opponents on Nearly Every Occasion.

7HEN our new army is in full training it will be found that the men who have done hard work all their lives will outclass the others in endurance. They are fit already to be soldiers. They will not

Perhaps the students and the cierks will make better officers, as a rule, since their work has developed thinking ability rather than manual ability. But the men who will be able to endure hardship and still keep in shape for fighting will be the men toughened by labor.

This has been shown among ring fighters. A few notable exceptions only prove the rule. James J. Corbett was a bank clerk when he began fighting. He developed great skill, which won many fights for him. But he never became a rugged fighter, and when he met men like Fitzsimmons

Sharkey and Jeffries he crumpled under their attacks. In ancient times the man who made the sword was the best man to wield it. Old writings describing the training of young men who were to become knights are interesting now that we are making fighting men all

The young men were trained for hours every day in every trick of his knockout hitting with the left. Carpentier of France was a coal nament play and physical sports.

They were put through courses in a style of wrestling which was a rough combination of holds and blows.

They ran races, jumped, vaulted how to box.

Carpentier of France was a coal mine worker.

Kid Lavigne was a jumper jack. His work was as hard as that of a blacksmith—or harder. It made him a great fighting man when he learned how to box.

have been ironworkers.

James J. Jeffries, one of the greatest heavyweights the world ever knew, was a boilennaker. Before he began fighting he spent years working in a boiler factory, and afterward out of doors constructing the huge iron tanks used for holding oil at the California oil fields.

Jeffries, in his championship days

Jeffries, in his championship days, was invincibly powerful and filled with an endless endurance that made it impossible to hammer him down. Fitzsimmons, the hardest hitter in the world, was a horseshoer for many years, and began fighting when he was a man grown. He always used a

THE RESERVE OF THE

They ran races, jumped, vaulted fences and played a game something like football.

But aside from all these things they were compelled to spend hours at hard labor with a smith's hammer, beating out iron to develop the great, unwearying muscles that would enable them later to strike terrific blows with sword or battleaxe and fight all day long in hand to hand conflicts without tiring.

WORKING IN IRON PUTS IRON IN THE MAN.

There is something about working in Iron that develops fighting men. Perhaps overcoming such resisting metal puts iron into the muscles that

Perhaps overcoming such resisting metal puts from into the muscles that do the work. Some of our best boxers the pen ironworkers.

Tomed to hard work, the fromworkers, smiths, lumbermen, farmers. They are the fellows who will be rivalling the best of our football players and college trained athletes in the fight-

Fistic News and Gossip By John Pollock

According to Scotty Montleth, manager of Dundee, the real reason that Johnny fought so remarkably fast last night was because if he had been knocked out he would have been forced to fight for nothing. Scotty says that Dundee bet \$4,000 to \$1,000 with a wellknown Broadway theatrical man that he would stay the limit.

"The reason that I was outpointed," said "The reason that I was outpointed," with Willie Ja keen after the fight, "was because I was control to he in wait for a real chance to put user my K. O. possile, bul Johnny was so fast and was on his toes so much that I never aught him right. I have me stomes to offer as my trainer, Jack Hayes, put me in the plak of condition. If I can pet Dondes in a terive-round bont in Boston, I will bet that I also him."
